

# EM&V Regulation Promulgation Process

- ▶ 8059(h)(3)(a)(1): establish requirements for *Evaluation, measurement and verification procedures and standards, including impact evaluation, environmental outcomes, process evaluation, market effects, and cost-effectiveness evaluation.*
- ▶ 8059(h)(3)(a)(2): establish *Requirements under which affected energy providers shall demonstrate, document, and report compliance with the savings targets established under § 1502(a) of Title 26.*
- ▶ 8059(h)(3)(a)(3): establish requirements for *Procedures and standards for defining and measuring electricity savings and natural gas savings that can be counted toward the energy savings targets established under § 1502(a) of Title 26.*

# EM&V Regulation Promulgation Process

- ▶ OEI working with DNREC to develop
  - Modifying existing EM&V Framework (ODC in April 2012)
  - Addresses:
    - types of EM&V
    - roles and oversight
    - guidance on methods and timing of studies
    - rules around deeming savings and retroactive vs. prospective use of EM&V
    - Net to gross procedures and guidance
    - cost-effectiveness criteria, methods and assumptions
    - quarterly and annual reporting to EEAC and PSC
